

So far this meteorological winter (which runs Dec 1 - Feb 28), there has been no measurable snow (0.1" or greater) recorded at the Louisville or Lexington official climate sites. Bowling Green has measured 0.6" so far in January.

This is quite unprecedented for the area. **The last time (and only time) both December and January recorded no snow in Louisville was the 1931-1932 winter. At Lexington, this 'snow drought' has never happened during its period of record.**

The tables below are the Dec and Jan monthly snow totals, including 2014-2015 winter so far (through 1/21).

Louisville				Lexington				Bowling Green			
Winter	Dec	Jan	Total	Winter	Dec	Jan	Total	Winter	Dec	Jan	Total
